Website :  
<https://itsmorris-worm.github.io/resume/>

Full stack developer with 10+ months of industrial experience (and 1+ years of college experience) in the field of web development. Skilled in Angular, Dotnet, MVC architecture and RestAPIs. Skilled in modularized and clean coding which follows SOLID principles. Worked on angular progressive web application (PWA). I am a fast learner and take initiative kind of developer who is always ready to learn new thing to fulfill the demanded requirement.

## PROJECTS

### Employee Reimbursement Website | Angular with DotNet MVC

A reimbursement website where employees add their reimbursement with type, data and add a receipt which allowed or rejected by admin.

### Book Reading Website | DOTNET Core MVC

A Book Reading Event website where a user organise a public/private event of book reading, invite other users in their event, change timing and place of future event, have one admin who can see all the organised events.

### Weather Application | Angular PWA

- A weather application using external API showing current location weather and is installable (PWA).

### Portfolio Website | HTML, CSS and JS

- An under development portfolio website with day and night mode selector and different sections of views.

### Coding Website | HTML and CSS

- An under development UI for the coding website.

## EXPERIENCES

### NAGARRO | Software Enginner Intern (5 months)

- Working on Angular, Dotnet, MVC architecture and design patterns.
- Made database using code first approach of dotnet, made APIs for Book Reading Event website and Reimbursement website.

### NAGARRO, Associate Software Engineer (5 month - present)

- Worked as UI developer on the client application.
- Contributed to many features by implementing APIs and writing their test cases at different levels (controller, repository and client).
- Worked on Replication, SSIS packages and web services.
- Fixed UI bugs including implementing new features and setting responsiveness. Worked with both bootstrap and angular material UI.
- Implemented APIs as per new features requirements using LINQs and stored procedures.

## EDUCATION

**Bachelor of Technology, Computer Science**, Lovely Professional University, CGPA: 8.35/10.00

2018 – 2022

**Intermediate, Science**, RamHarsh Intercollege, Nichlaul(UP) Percentage: 83.4%

2016 – 2017

**High School**, Jawahar Navodaya Vidyalaya, Maharajganj(UP) CGPA: 10/10

2014 – 2015

## ACHIEVEMENTS AND CERTIFICATIONS

<b>Coding(Present)</b>	Solved 500+ coding problems on various online coding platforms
<b>GeeksForGeeks(2021)</b>	Completed 8 weeks DSA course with certification.
<b>CodeChef(2021)</b>	4 star(Competitive Coding)
<b>CodeChef(2021)</b>	World Rank 7(March Long Challenge)
<b>HackerRank(2019-2020)</b>	Badged 6 star in DSA and 5 star in MySQL
<b>Jnr. Scientist(2015)</b>	Badged Jnr. Scientist position in Regional Science Congress(JNV)

## SKILLS

<b>Languages</b>	C/C++   C   Typescript   HTML   CSS.
<b>Databases</b>	SQLServer.
<b>Frameworks</b>	DotNet, EntityCore, Angular, Bootstrap, Angular Material.
<b>Tools and Techs</b>	Git, Github, VS Code, Visual Studio, SSIS packages, Replication.
